Abstract

Easy ethics comprehended when it is only written and said, but it is difficult to be felt more than anything else done. This matter do not get out from human being where residing in which always related to problem of place room and time, formulated with the title where tread on there sky hold high. Ethics represent compulsion comprehended by each; every human being in life go into society without eyewitness. This is a reflection taken from a holy building such as Temple of Suku and some ornaments in the form of colossus naturalist and yoni at gateway floor.
